Assumptions

- Players can recommend other players, creating a relationship between "Player" and "Recommendation."
- "Booking" entities can only book "Courts," which are specified by "Tennis," "Pickleball," or "Both" categories.
- A "Park" can have multiple "Courts," but each "Court" belongs to only one "Park." The park may operate at various locations, and each court has a type and availability status.
- "Caretakers" are responsible for maintaining both "Parks" and "Equipment," suggesting caretakers have technical skills for equipment upkeep.
- Instructors can coach different activities (e.g., fitness play, group coaching), requiring varied qualifications.
- Coaching services are split into "Personal" and "Group," each managed separately in the database.
- Session types include "Single" and "Double" matches for unassisted sessions, with player limits defined for each type.

BAQ

I**IT Number:** 20221804

Question 01: Is there a set fee for each session type?

Answer: Yes, each session type has a predetermined fee.

Question 02: Who is responsible for booking a court for a session?

Answer: Racketminster handles bookings for supervised sessions, while players book courts for unsupervised sessions.

Question 03: Can more than one caretaker be responsible for maintaining a single piece of equipment?

Answer: Yes, multiple caretakers can be assigned to maintain a single piece of equipment.

Question 04: Can players view court maintenance schedules to plan their bookings?

Answer: Yes, players should be able to view maintenance schedules before making a booking.

Question 05: What qualifications are required for instructors?

Answer: Instructors must hold relevant coaching certifications based on the type of session they oversee.
